

# ELEGANT ELOPEMENT

LAS VEGAS

The game-free Waldorf Astoria is the most elegant wedding venue on the Strip, and its new elopement package is ideal for two to five guests. Elopements include a ceremony with a licensed officiant and professional photographer in the property's stunning Villa Suite, featuring floor-to-ceiling windows offering dazzling panoramic views. Embroidered bride and groom face masks, a honeymoon cabana at the secluded eighth-floor pool, and high tea for two in the tea lounge make for a safe and sexy getaway. Indulge in a couple's spa day with a two-hour intimate Karmic Happiness Ritual for two, comprising a skin-softening body exfoliation, customized aromatherapy, private steam shower, and full body massage. **3752 S Las Vegas Boulevard, waldorfastorialasvegas.com**

## DIGITAL DREAM SPACE

Museum of Dream Space, a multi-media art gallery, opened its first location outside of California at the Grand Canal Shoppes inside the Venetian Resort. Inspired by art design from Yayoi Kusama and the development of digital art, MoDS Vegas transports guests to an ethereal dreamland using state-of-the-art technology and structural design. The playful experience traverses five spaces, ranging from the Gold Room to the Moon Room, journeying from abstract glittering gold finishes to vibrant floating bulbs filled with glowing electricity. Celebrity visitors in Los Angeles included Justin Bieber and LeBron James, and collaborations with Las Vegas artists like Adam Rellah inject a unique local touch into the newest location. **3327 S Las Vegas Boulevard, Suite 2732, modsvegas.com**

## A VEGAS ORIGINAL

Husband-and-wife team and Zappos alums Fred and Meghan Mossler founded Vegas' first luxury brand, Ross & Snow, in 2017. The stylish footwear is crafted in small, family-owned factories in the Tuscan countryside, combining the heritage of traditional Italian shoemaking with modern technologies, including proprietary weatherproofing treatments and arctic grip outsoles on the best-selling boots. The full line also includes shoes and sneakers, made from responsibly sourced Mongolian shearling and full-grain Italian leather. Ross & Snow's newest sport line of luxury sneakers mixes high-end design with casual vibes, featuring the brand's signature starburst insignia. **ross-snow.com**

## WHAT'S OLD IS NEW AGAIN

One of the oldest hotels in Las Vegas, family-owned El Cortez Hotel & Casino celebrated its 80th birthday with a \$25 million facelift, including 200 remodeled premium tower rooms and suites, a new hotel lobby, and a dazzling high-limit room backlit with vintage neon signage. The original facade from 1941 and much of the Spanish Colonial Revival-style architecture has been preserved and even the new rooms draw inspiration from the Spanish Colonial theme with black-and-white floor tiles, traditional rugs, and carved wooden details. One of the most striking changes is the new Havana, Cuba-inspired woven Axminster carpet by Brintons, a fiery leopard print and leaf design in bright red, gold, and green replacing the rose print carpet that regulars remember. **600 E Fremont Street, elcortezhotelcasino.com**

## NEW AGE ART

Located in AREA15, Museum Fiasco is like a lightning bolt to the senses, immersing visitors in a sound and light spectacle within a 5,000-square-foot gallery. Inaugural exhibit "Cluster" explores the chaotic feeling of being inside the kernel of a glitchy computer processor through strobing lights operating in harmony with a dynamic soundscape. Or you can ignore that storyline and simply move your body like you're in a pulsating dance club. This is art for a new age, up for interpretation as you wish. The 360-degree audio-visual experience is both electrifying and baffling, guaranteed to make your heart race. **3215 S Rancho Drive, museumfiasco.com**
