AMERICA'S CUP PENTHOUSE PERCH

Hotel Arts Barcelona was originally built for the 1992 Olympics, and the sleek urban resort soars 44 floors high with views of the Port Olímpico marina, Barceloneta beach and Barcelona skyline. This summer, it will also be the premier viewing location for the Louis Vuitton 37th America's Cup, beginning Aug. 22 through Oct. 20, 2024. Spectators can enjoy panoramic seascape scenes from the 33rd floor club lounge, where wine flows freely alongside lavish culinary presentations throughout the day. Unlike many hotel spas, relegated to the basement, 43 The Spa boasts two private aquatic areas overlooking the sea, outfitted with a hydrotherapy pool, steam bath, dry sauna, and outdoor terrace on the 43rd floor.

Book one of 28 bi-level penthouse suites for floor-to-ceiling ocean views in the privacy of your room, along with club-level access, fully equipped kitchens and 24-hour butler service. All the furniture in these penthouse suites is designed by Catalan Designer Jaime Tresserra, famous for his sophisticated woodwork and elegant aesthetic, including his signature Carpett desk. When it's time for dinner, two-Michelin-starred Enoteca Paco Pérez will not disappoint, with artful plating and playful modern twists on classic Spanish flavors, from Gaudi-inspired seafood tartare to unexpectedly sweet seaweed flan. hotelartsbarcelona.com
